ABOUT ME

Well-organized, highly motivated, hardworking and responsible Front-end Developer with a passion to write clean readable and maintainable code. I have 1.5 years of practical experience creating SPA and responsive websites. I am highly skilled in HTML, CSS, Sass/SCSS, JavaScript and React, creating valuable and effective technological solutions. Likewise, I want to constantly continuing improving my skills and be a part of a team developing technological products and spreading creative ideas. Furthermore, I'm always open to new knowledge, technologies and challenges.

EDUCATION

React developer (React/Redux/TypeScript)

2020 - 2021

IT-INCUBATOR

- Studied in practice React/Redux/TypeScript
- Gained a deeper understanding of JavaScript
- Met a large purposeful community, found like-minded people, friends
- Made a project based on the studied technologies and competent architecture of the Todolist project, for recording notes
- Github page: daviddradcenko.github.io/TodolistImp
- Based on the studied technologies, I made my own social network for programmers to search for like-minded people, with a built-in ability to rewrite in chats and groups.
- Github page: daviddradcenko.github.io/social-system

Software engineer (JavaScript/Java/Databases)

07/2016 - 06/2020

Molodechno Trade and Economic College

- Received a diploma of a computer operator of the 5th category

- Got the basics of Delphi, C#

- Got a deep understanding of JavaScript, Java, MySQL, Oracle Database

- Wrote a full stack project for my educational institution for a graduation project and received the maximum score during the evaluation of the assessment commission

EXPERIENCE

React and JavaScript Trainee

11/2020 - 05/2021

AGAT-SYSTEM

Minsk

This is a state-owned enterprise that develops electronic warfare equipment. I worked in a small banking systems support department. There were 9 people in the department, I showed high resistance to stress and was highly appreciated by the team leader. I was offered the position of Junior Full Stack Developer, but due to a change of residence and the inability to work remotely, I had to refuse this offer
